Minor in Science, University of Hawaii
MA, Educational Leadership, University of Hawaii

Dear Families & Friends of Keolu Elementary

Welcome to Keolu Elementary. I am delighted to begin another year at Keolu and welcome the opportunity to work alongside the teachers, parents, and, most importantly, the students. We are a community of pre-K – 6th grade learners and faculty, who learn and grow together to provide the best education possible. At Keolu, we value each child for their unique attributes that they bring to our learning community. We strive to provide a safe learning community where all children feel a sense of belonging and empowerment to reach their full potential as learners.

What sets Keolu Elementary apart from other schools is our personalized care that we give our students. We purposely keep our class sizes low so that teachers can give the personal attention to your child that he/she needs for continual growth academically, socially, and emotionally. The academic progress of all children is monitored carefully by the teacher through the use of researched based assessments that measure growth and areas of need.

We invite parents and community to be a part of our learning community. Due to Covid-19 pandemic, we are finding creative ways to connect with our students, parents, and school community members through a variety of communication sources such as text, phone, email, and hard copy letter. I will personally ensure that your child will have the digital tools and assistance they need to connect to their daily learning. I welcome parents to call or text me anytime that you need help with connectivity or any other need you may have. I am here to serve you.

Thank you for your interest in visiting our school web site. We are taking special care to update it often so that others can see all the great learning opportunities we offer at Keolu.

Sincerely,

Gay Marie Kong
